

# The TRANscribe Project:

*Advocating for Equality and Justice through Our Stories*

## **OUR STORIES ARE POWERFUL.**

**The TRANscribe Project** is a collection of stories that display the diverse experiences and identities of transgender New Yorkers. These stories are told through our own words as transgender, gender non-conforming and allied New Yorkers.

Our stories can challenge stereotypes, shed light on the discrimination many of us experience today and highlight our successes. Our stories show the public that we are a diverse and vibrant part of New York's communities.

For more information about **The TRANscribe Project** and to submit your story online, visit:

**[www.prideagenda.org/story](http://www.prideagenda.org/story)**

We will highlight collected stories in public education and advocacy campaigns (including, but not limited to, a website, print ads, radio and television spots, and legislative packets).

**We will honor requests for anonymity, respect your privacy and protect your personal information.**
